

Stay Compliant, Manage Risk, and Ace Audits

ARC - Audit, Risk, and
Compliance

A NEXVAL Product

ARC - Audit, Risk, and Compliance is an innovative platform designed to help businesses manage internal risks and ensure regulatory compliance. Loaded with high-tech features, ARC is an all-in-one software for performing Quality Control and Quality Assurance projects. It is a highly flexible and usable platform for virtually all kinds of audits or workflows. Created by a team of mortgage technology experts, ARC reflects Nexval's deep mortgage domain expertise and unmatched technology experience.

ARC Highlights

-  Updated Compliance Library with 20,000+ Questions
-  Customizable End-to-End Robust Reporting Module
-  Pre-built Templates for Seamless Audits
-  In-built Audio Player for Voice Quality Control
-  Customizable Drill Down Dashboard
-  **90 Days** Free Trial

What Makes ARC Unique?

- Publish date and effective dates provided along with version control for every single mandate in the library
- Round-the-clock support via chat, call, and ticketing tool
- Helps manage risk not only at transactional level but also at process level
- Easily accessible web app hosted on the cloud to conduct audits on the go
- Automated routine process to reduce audit workload
- Comprehensive coverage of mortgage servicing mandates like Fannie Mae, Freddie Mac, FHA, USDA, VA, SCRA, MERS, CFPB, HUD-MLs, and COVID-19 mandates

ARC Puts You in Control of Your Audit, Risk, and Compliance Needs
